

Harvest-Monrovia Water and Sewer Authority

April 14, 2010

Builders,

The Board of Directors of the Harvest-Monrovia Water, Sewer and Fire Protection Authority approved for Impact Fees to be paid on all residential irrigation water meters. This action was taken at the April 13, 2010 Board Meeting. The Impact fee will be same as Impact fees on residential lots for development. Currently this fee is \$765.00 and will increase annually same as all other fees.

This charge will be effective May 1, 2010. Meter cost and deposit will be determined by size of meter requested.

Sincerely,

Roger Raby
General Manager
Harvest-Monrovia Water
